Here are Steve's markups to the petition staff report. I have not had a chance to review yet, nor have I seen David Berol's additions.

I have comments/edits on both documents.

David: I have a marginal comment question for you on the first one.

Thanks,

Steve

Just got this, haven't read it. Looks like they want comments by Wednesday.

Mark Dyner
EPA Office of General Counsel

Steve,
Thanks again for you and your staff's (and OGC's) willingness to take a look at the response we are preparing to the Northwest Environmental Advocates petition related to pesticide use, in particular our characterization of activities related to implementation and litigation over the RPA's specified in NMFS biological opinions. As we discussed on the phone last week, due to the tight timeframe DEQ's Commission has to act on such requests, we've have a compressed time schedule for preparing this document. In the previous e-mail you received from Debra Sturdevant, the lead staff person on this project, she noted a timeframe of Monday for a review. I recognize this timeframe may present some significant challenges for EPA's review, and we could accommodate feedback up to Wednesday from whomever ends up reviewing this.

If you, your staff or OGC have any questions, please feel free to contact me or Debra. Thanks again for participating in the phone call last week and your assistance in reviewing our document.

Best regards,
Jennifer

Attached are a draft EQC staff report and draft Petition Evaluation Report, which will be an attachment to the staff report.

I would very much appreciate your review of these documents by noon on Monday, October 8 if at all possible. Due to the time limit for the Commission to respond to petitions, we are on a tight schedule.

Thank you, and please let me know if you have questions.

Debra
